STEER

CABSCon is a one-day meeting aimed at creating a fairly informal atmosphere to explore and discuss the advances in different disciplines within the framework of Biotechnology. Going beyond the traditional boundaries of Biotech research, this meeting welcomes people interested in applied mathematics, engineering, physics, as well as chemistry/biochemistry/biology. Our objectives are to facilitate networking with invited speakers from successful Biotech companies, becoming familiar with students research projects, and encouraging dialogue between students and researchers from academia and industry.

SPEAKERS

David Lin - Bristle, Inc., San Francisco, CA

Nate Lanning - California State University Los Angeles, CA

Andrew Tomaras - Forge Therapeutics Inc., San Diego, CA

Participation is free but registration is required

To register visit the CABSCon6 website: <http://cabs.fullerton.edu/CABSCon6.asp>
